MEMORANDUM FOR: Director of Logistics

FROM:

Special Support Assistant to the DDA

STAT

SUBJECT: Liability of Commercial Parking Lot
Operators

If and when the Agency begins to charge employees for parking in the compound, the compound will then become a commercial parking facility and I assume that the government will assume the obligations and responsibilities which are inherent in commercial operations. That is, if an employee rents the space, he is entitled to the protection of his property while it is there. Could you please advise me how I should respond to questions concerning the proper channel for submissions of claims for loss or damage to personal property while it is in the custody of the vendor -- in this case the operator of the commercial parking facility. I assume that this will be a responsibility of the Director of Logistics.
